这个世界上恐怕很难有什么东西比音乐更抽象了，它只是一组声音，转瞬即逝；但音乐又是世界上内涵最丰富的东西，因为它留给我们的想象空间是无边无际的。所以，音乐对孩子想象能力的培养是任何别的东西都无法比拟的。

In this world, it is difficult to have something more abstract than music. It is just a set of sounds that are fleeting; but music is the most connotative thing in the world, because the imagination space it leaves us is boundless. Therefore, the cultivation of music's imagination of children is unmatched by anything else.

The musical image reveals in a new way the unique point of the various things and phenomena in the real world. 用协奏曲康加鼓来设定节奏! 就像真正的康加一样, 声音会随着你敲击鼓头的位置而变化, 几乎没有什么回声。因为它们的直径和长度不同, 所以它们的音调也不同。最小的蓝色鼓有最干燥、最脆的声音, 而最大的橙色鼓有最温暖、最完整的声音。所有的鼓都被设置成一个可以让所有能力的人保持节拍的角度。

Use the concerto Conga drums to set the rhythm! Just like the real Conga, the sound changes as you tap the head of the drum, and there is almost no echo. Because of their different diameters and lengths, their pitch is also different. The smallest blue drum has the driest, crispest sound, while the largest orange drum has the warmest, most complete sound. All drums are set to an angle that allows all abilities to maintain a beat.
